

BASEBALL GAME

2

3

1

At the buzzer, turn over one card.

If it is an **'ACE'**, you will engage target number one with one shot, proceed to number two target and engage with two shots and then go to number three target and engage with three shots.

If the card is a **'TWO'**, then start with number two target with two shots, proceed to number three target and engage with three shots, then go to number one target and engage with one shot.

If the card is a **'THREE'**, then start with number three target with three shots, proceed to number one target and engage with one shot and finish with number two target with two shots.

Scoring will be the standard IDPA points down and time. There may be **'NO-SHOOT'** targets included. These are 25 point penalty targets.
