

CARD GAME

There will be 8 targets in front of you. There will be two of each suit, hearts, diamonds, clubs and spades.

On the table will be four cards face down. At the buzzer, turn over ONE of the cards and engage the two corresponding suit targets downrange with two shots to the body and one to the head. Your score will be the total of time, score on the target (IDPA scoring) and penalties. A clean miss will add 5 points. A hit on the wrong target will add 25 points to your score.

DON'T HIT THE WRONG TARGET

Alternate Scenario: Shoot one shot on every target EXCEPT for the suit you selected.
