

Construction Zone Shootout

You are in front of a construction area wall when you hear screams for help.

You see, thru a hole in the wall, three bad guys each with a hostage.

Being a good citizen, properly armed, you attempt to free the hostages.

Start with your left foot at the wall.

KEEP THE MUZZLE POINTED DOWNRANGE NOT AT THE FLOOR!

At the buzzer you engage the bad guys using one shot per access hole. Each bad guy gets two shots, one from each of the holes in front of the bad guy/ hostage.

Score will be for time and penalties. Misses will count +5 and non-threat hits will add 25 points to your score.

Please note that the above representation is not to scale.
