

THE “STEEL” CHALLENGE

We will use Bullseye targets instead of “STEEL” for this match. The entire black area on the target will be the “hit” zone. Black zone is down zero, white is down 1 point and a miss is down 5 points. Scoring is for time and points down. It is much like the Pins on Pedestals match, except using paper targets. The targets will be placed at different heights and distances utilizing hangers and stands.
